

VIIN

Victorian & Infection
Immunity Network

The Victorian Infection and Immunity Network brings together researchers with interests in infectious disease, immune responses and related fields. This has facilitated the exchange of ideas, reagents and technologies, improved scientific output and performance through increased scientific awareness and collaboration. The network promotes the development of young investigators and postgraduate students working in the field of infection and immunity. VIIN aims to develop and promote platform technologies and access to strategic funding opportunities. VIIN plans to convene an annual Infection and Immunity conference as well as special interest activities.

The website at www.viin.monash.org contains member profiles, contact details and fields of research, information on departmental seminars, conferences, platform technologies, news and events.

VIIN members include:

- Monash University
- University of Melbourne
- La Trobe University
- Burnet Institute
- Walter and Eliza Hall Institute - Infection and Immunity Division
- Monash Institute of Medical Research
- CSIRO: Australian Animal Health Laboratory
- Victorian Infectious Diseases Research Laboratory
- Monash Medical Centre Infectious Diseases
- Alfred Hospital Infectious Diseases Unit
- Monash Institute of Pharmaceutical Sciences
- Pfizer Animal Health
- ARC Centre of Excellence in Structural and Functional Microbial Genomics
- Australian TLR Research Network
